The main purposes include: - Enhancing competitive positioning - Improving operational efficiency - Supporting innovation and product development - Achieving cost leadership or differentiation strategies

Key Components

The process involves understanding: - Cost behavior and drivers - Value chain activities - External market factors - Internal strategic goals

Phases of the Process of Strategic Cost Management

The process can be broadly divided into several interconnected phases:

1. Strategic Analysis
2. Cost Identification and Allocation
3. Cost Reduction and Value Enhancement
4. Implementation of Cost Strategies
5. Monitoring and Continuous Improvement

Let's examine each phase in detail.

1. Strategic Analysis

This initial phase lays the groundwork for effective cost management by understanding both internal and external environments.

Conducting External Market Analysis

Organizations analyze factors such as:

Cost Identification Techniques

Methods include:

1. Activity-Based Costing (ABC): Assigns costs based on activities that drive expenses
2. Process Costing: Suitable for homogeneous products
3. Job Costing: For customized jobs or projects

Cost Allocation Strategies

Allocate costs to products, services, or departments using:

1. Direct tracing for identifiable costs
2. Cost pools for shared expenses
3. Cost drivers to assign indirect costs accurately

Analyzing Cost Behavior

Understanding fixed, variable, and mixed costs helps in: - Forecasting future expenses - Identifying areas for cost control

3. Cost Reduction and Value Enhancement

This phase focuses on identifying opportunities to reduce costs without compromising value.

Value Chain Analysis

Break down activities into primary and support activities:

1. Primary activities: inbound logistics, operations, outbound logistics, marketing, sales, service
2. Support activities: procurement, technology development, human resource management, infrastructure

Identify value-adding versus non-value-adding activities.

Techniques for Cost Reduction

- Process Improvement: Lean management, Six Sigma - Outsourcing and Offshoring: Delegating non-core activities - Automation: Implementing technology solutions - Negotiation: Better terms with suppliers - Product Redesign: Simplifying products to reduce complexity

Innovation and Value Creation

Cost management is not solely about cutting expenses but also enhancing value: - Developing more efficient processes - Offering bundled or differentiated products - Improving customer service
