Microsoft Word, Google Docs, LibreOffice Writer, Apple Pages, Adobe InDesign, and even PowerPoint all include built-in PDF export features. Simply create your document as usual, then choose “Save as PDF” or “Export to PDF” from the file menu. This method ensures high-quality output with accurate formatting.

2. Print to PDF Feature:

Most modern operating systems, including Windows, macOS, and Linux, offer a built-in “Print to PDF” option. This feature allows you to convert virtually any printable document into a PDF file.
