However, scanned PDFs that consist only of images are far less effective. Without readable text, search engines cannot fully index the content. Using text-based PDFs or applying optical character recognition (OCR) ensures that content remains searchable and indexable.

Optimizing PDF file names for SEO

The file name of a PDF plays a significant role in search visibility. Descriptive, keyword-rich file names help search engines and users understand the document before opening it. Instead of generic names, using clear and relevant terms related to Apc Science Lab Manual Class 10 Cbse improves both SEO and user trust.

Hyphens should be used to separate words in file names, as they are more search-engine-friendly. Avoid unnecessary numbers or symbols that add no context or value to the document's topic.
