Analyzing the Authenticity of the

Photos

Technical Examination of the Images

One of the central questions is whether the photos are genuine or manipulated. Experts in digital forensics conducted analyses that examined: - Metadata associated with the images - Pixel consistency and signs of editing - Contextual clues within the images Findings from these investigations indicated: - Some images appeared to have been edited or digitally manipulated to alter facial features or surroundings. - Metadata was inconsistent or missing, raising suspicion about their origin. - Certain images bore visual artifacts suggestive of Photoshop or AI-generated modifications.
