Sequence of Events Leading to the Collision

Flight Paths and Air Traffic Control

The Saudi Arabian Airlines flight was en route from Delhi to Dhahran, while the Kazakhstan Airlines flight was heading from Delhi to Novosibirsk. Both aircraft converged over northern India, near Charkhi Dadri. The air traffic control (ATC) in Delhi cleared both flights for descent and aligned their flight paths at similar altitudes. However, due to miscommunication and inadequate coordination, the aircraft were on intersecting trajectories at the same altitude.

Errors and Oversights

Several factors contributed to the collision: - Incorrect altitude separation: The aircraft were not properly separated vertically as per international safety standards. - Communication lapse: The flight crews and ATC failed to ensure clear, unambiguous communication. - Pilot error: Both crews failed to maintain safe separation, possibly due to misinterpretation of instructions. - ATC oversight: The air traffic controllers did not effectively monitor or correct the aircrafts' flight paths.

Causes of the Charkhi Dadri Collision

Primary Causes

1. **Pilot Error:** Both flight crews misjudged their positions and failed to maintain safe separation.
2. **Inadequate Air Traffic Management:** The ATC did not enforce proper separation standards or alert pilots about potential conflicts.
3. **Communication Failures:** Miscommunications or incomplete instructions contributed to the aircraft converging on the same altitude.
4. **Failure to Follow Protocols:** The aircraft may have been operating outside standard safety procedures, possibly attempting to expedite their routes.

Contributing Factors

- Limited use of modern collision avoidance technology at the time. - Overcrowded airspace over Delhi, leading to increased risk. - Human factors such as fatigue, workload, or misjudgment.

Impact and Aftermath

Loss of Lives

All 349 people onboard the two aircraft were killed, including passengers, crew members, and military personnel. The crash remains one of the deadliest aviation accidents in history.
