1. Explain the concept of the marketing mix and its components.

Answer:

The marketing mix, often called the 4Ps (Product, Price, Place, Promotion), is a foundational framework that guides marketers in designing and executing effective marketing strategies.

1. Product: The goods or services offered to meet customer needs. This includes features, quality, branding, and packaging.
1. Price: The amount customers pay for the product. Pricing strategies must consider costs, competition, perceived value, and demand elasticity.
1. Place: Distribution channels through which the product reaches customers.

This encompasses logistics, location, and accessibility.

1. Penetration Pricing: Setting low prices to enter a competitive market and gain market share quickly, then gradually increasing prices.
1. Skimming Pricing: Launching with high prices to maximize margins from early adopters, then lowering prices to attract more price-sensitive customers.
1. Psychological Pricing: Using pricing that influences perception, such as \$9.99 instead of \$10.00.
